Claranova is launching the issue of net share settled bonds convertible into new shares and/or exchangeable for existing shares (ORNANE) maturing on 1 July 2023, for a maximum par amount of EUR 29 million

Paris, France – 14 June 2018. Claranova (the "Company") is launching today the issue of net share settled bonds convertible into new shares and/or exchangeable for existing shares (ORNANE) (the "Bonds") to qualified investors with a maximum par amount of EUR 29 million.

Use of the proceeds from the Bond issue

The net proceeds of the bond issue will be used to fund, on the one hand, the takeover by its Avanquest division of the Canadian companies Upclick, Lulu Software (SodaPDF) and Adaware, announced in March 2018¹ and which should be completed before 1 July 2018, for approximately EUR 13 million² and the remainder for Claranova's general financing needs.

Upclick, Lulu Software and Adaware make up an international group in the Internet sector, present in most countries of the world, and with positions in the following three activities:

- e-commerce transaction management through **Upclick**, one of the most modern platforms in the world;
- PDF applications and document management with **Lulu Software**, one of the world's major players for PDF solutions through its SODA PDF product line;
- Internet security with **Adaware** anti-virus and security solutions, known worldwide.

Overall, the Group's activities represent consolidated revenue of around USD 34.7M, with EBITDA of USD 5.3M³.

Avanquest and these companies have already been collaborating for many years and their employees have extensive experience in team projects and clients with similar profiles. This operation will make it possible to combine existing offers from both groups: Avanquest through its software, e-mail, cashback and product catalog, together with security solutions (Adaware), PDF tools (Lulu) and e-commerce (Upclick).

The integration of these new entities should generate significant synergies in the future, leading to a dramatic improvement in Avanquest's margin ratio and represents the first step in the ambition to turn Avanquest into a **European leader in monetising Internet traffic**, with the aim of this division achieving medium-term **revenue of**

² Should the acquisition of Upclick, Lulu Software (SodaPDF) and Adaware not occur, this portion of the net proceeds from the issue will be allocated to other external growth projects for the Avanquest division (subject to the approval of the Group management and in line with Group strategy).

³ Unaudited figures for the year 2017

EUR 100M with profitability of 15%-20% (in terms of EBITDA⁴), provided that market conditions are favourable.

The acquisition of Upclick, Lulu Software and Adaware remains subject to certain conditions precedent being met before 1 July 2018, including the final approval by the Supervisory Board of Claranova.

Timetable

The Bonds are expected to be issued at par value on **19 June 2018**, the expected date of settlement and delivery of the Bonds. They will be redeemable at par value on **1 July 2023** (or the next business day if this date is not a business day).

The closing of the order book and the setting of the final terms and conditions of the Bonds are scheduled for **15 June 2018** at the latest. The Company will announce the result of the offering and the final terms for the Bonds as soon as possible in a press release.

Main conditions of the Bonds

The Bonds will bear **interest at an annual par rate of 5.0%**, payable annually at term on 1 July each year (or on the following business day if one of these dates is not a business day), and for the first time on 1 July 2019 (the first coupon will be calculated pro rata).

The **par value of the Bonds of EUR 1.10** should result in an **issue premium of approximately 20%** in relation to the reference⁵ Claranova share price on the regulated Euronext market in Paris ("**Euronext Paris**").

Early redemption of the Bonds by the Company's decision

The Bonds may be redeemed early on the initiative of the Company under certain conditions, including in the following cases:

- at any time, for all or part of the Bonds, without limitation of price or quantity, by purchases on the stock exchange or off-exchange or by buyback or exchange offers;
- at any time up to the normal redemption date, for all Bonds remaining in circulation, subject to at least a 30 trading days' notice, per par value plus interest accrued since the last payment date until the date set for the early redemption, if the arithmetic average, calculated over 20 consecutive trading days among the 40 days preceding the publication of the notice of early redemption, of the proceeds of the first quoted prices of the Claranova shares observed on Euronext Paris and the conversion ratio in effect at each date exceeds 135% of the par value of the Bonds;
- at any time, for all outstanding Bonds, subject to at least a 30 trading days' notice, by par redemption plus accrued interest, if their outstanding number is less than 10% of the number of Bonds issued.

Early redemption of Bonds at the option of Bondholders in the event of a change of control

In the event of a change of control of the Company, any Bondholder may, at his or her sole discretion, request the early redemption in cash of all or part of the Bonds he or she owns, at a price equal to the par value plus accrued interest.

Conversion Right

Bondholders shall have a conversion right that they may exercise at any time from the date of issue to the twenty-ninth trading day (inclusive) preceding the normal or early redemption date.

The conversion rate of the Bonds is one share for one Bond, subject to subsequent adjustments.

In the event of the exercise of the conversion right, the Bondholders shall receive, at the Company's decision, either only an amount in cash, or the combination of an amount in cash and new and/or existing Claranova shares or only new and/or existing Claranova shares. The new and/or existing Claranova shares, if any, will bear current dividend rights.

Dilution

⁴ EBITDA is the aggregate now used to evaluate the profitability of the businesses. It replaces the adjusted EBITDA previously used. It corresponds to earnings before the deduction of interest, taxes and duties, depreciation (but after provisions related to inventories and trade receivables), amortisation and share-based payments.

⁵ This reference price will be equal to the volume-weighted average trading price of the Company's shares on Euronext Paris from the opening of the market on 14 June 2018 until the moment the final terms and conditions of the Bonds are established.

As an illustration, considering a Bond issue in an amount of **EUR 29 million**, a par value of the Bonds of EUR 1.10, the dilution would be **6.7% of the Company's current share capital if the Company decides only to issue new shares and 1.74% if the Company decides to settle the par value of the Bonds in cash, and in new shares the difference between the conversion value of the Bonds and their par value** (assuming a conversion value of EUR 1.49 corresponding to 135% of the par value of the Bonds, the threshold at which the Company may exercise its early redemption option for the Bonds, corresponding to an approximately 60% increase in the share price).

Intentions - Commitments

The members of the Company's Supervisory Board and Management Board have not communicated to the Company an intention to subscribe to this issue.

As part of the issue, the Company has made a commitment to abstain from market participation for 90 calendar days from the settlement date, subject to certain exceptions.

Legal framework of the issue – Offering – Admission to trading on Euronext Access

The issue of the Bonds will be carried out without preferential subscription rights or shareholders' subscription priority periods pursuant to the Sixth Resolution of the Extraordinary General Shareholders' Meeting of 7 June 2017, in which the shareholders decided to waive their preferential subscription rights to the Bonds.

The Bonds will only be the subject of a private offering in the Member States of the European Economic Area (to the exclusion of any other country including the United States of America, Canada, Australia and Japan) to persons covered by Article L.411-2-II of the French Monetary and Financial Code (excluding any retail investor within the meaning of the PRIIPs Regulation).

The Bonds will be the subject of an application for admission to trading on the Euronext Access market (ISIN: FR0013342425). The admission to trading of the Bonds is scheduled for 19 June 2018.

Octo Finances acts as manager and bookrunner for the transaction.
